

REQUISITION WAS REFUSED

Action of Governor Haskell, of Oklahoma on the Burrell Case Tuesday Evening.

EX-BANKER IS REARRESTED

Attorney Applewhite Starts to Indiana to Secure Another Requisition From Gov. Marshall.

Hugh Burrell, the fugitive ex-banker of Brownstown, has won the first round in the fight to return him to Indiana for trial but he has not yet gained his liberty.

Governor Haskell, of Oklahoma, after a final hearing in the case Tuesday evening, denied the requisition of Governor Marshall.

Burrell was promptly rearrested, however, and the fight will go on.

The above information was conveyed in the following telegram sent from Oklahoma City Tuesday night by Attorney R. B. Applewhite and received Wednesday morning by Charles Bolles, of Brownstown. "Requisition denied. Rearrested and under bond for 30 days. Will be home probably tomorrow for other requisition." It is not known on what grounds the requisition was denied, but it is thought from the fact that Governor Marshall will be asked for another requisition that the refusal was on technical grounds. This view is confirmed by the fact that after the first hearing Monday evening Haskell referred the case to the attorney general before the final hearing.

The fear has from the first been expressed that there might be difficulty in getting Burrell out of Oklahoma, and there have been numerous conjectures as to what Haskell would do. McNerney is known to be influential and he has given evidence that he will make a desperate fight to prevent his father-in-law's return. Monday he boasted that it would be summer before they get Burrell. But the Bolles family and the others who are backing the efforts to bring Burrell back have able legal representatives at Oklahoma City and will leave no stone unturned in the fight to get him.

From the immediate rearrest, careful precautions had evidently been taken to prevent Burrell's escape in the event of Haskell refusing the requisition. It is hoped that the denial means only the necessity of remedying some technicalities and complying with legal forms. It is supposed that Burrell's release was under the old \$10,000 bond. The return of Attorney Applewhite with particulars is anxiously awaited at Brownstown.

Last week by giving one bottle of extract with the purchase of one bottle of Kidney and Liver Remedy, we sold one hundred and seventy-four bottles. We want to sell two hundred bottles this week and we will give for the balance of the week one bottle of pure extract with every purchase of any 50 cent bottle of our remedies.

FRANK MOORE DEAD.

Young Man Passes Away After Short Illness of Typhoid Fever.

Frank Moore, aged twenty years, died Tuesday evening at 5:45 o'clock at the home of his grandmother, Mrs. C. C. Frey, after a two weeks' illness of typhoid fever. About a month ago the young man went to Indianapolis to accept employment, but remained only a short time. Soon after his return to Seymour he was taken seriously ill, but it was believed he would recover until about noon Tuesday when his condition changed suddenly for the worse.

The deceased was the son of Mrs. Laura Moore, of Indianapolis, but had lived in Seymour practically all of his life. For five years he was employed in the railroad offices of the B. & O. S-W., having resigned that position shortly after the death of his grandfather, the late C. C. Frey, last winter. The young man had many friends in this city who were grieved to hear of his sudden death. Those who were acquainted with the deceased have said that they never had heard him make an offensive remark against any one. He was very popular with his friends because of his honesty and sterling qualities.

The young man seemed to have grieved deeply over the death of his grandfather, and during his last illness remarked several times that he did not desire to recover. Besides his mother he leaves one sister, Miss Bessie Moore, of Indianapolis.

The funeral services will be held from the residence at the corner of St. Louis avenue and Walnut street, at 2 o'clock Thursday afternoon, conducted by the Rev. F. M. Huckleberry, pastor of the First Baptist church. The remains will be interred at Riverview cemetery.

Friends wishing to view the remains will call at the home from 10 to 12 o'clock Thursday morning.

Holiday Offer.

Until December first we will make one dozen of our \$3.00 fine cabinet photographs and one eleven by fourteen portrait for \$3.00. One dollar is to be paid when negative is made, balance when pictures are complete.

See sample of photos and portrait at our gallery, 118 West Second street Seymour.

WILLIAM J. BRYAN SPEAKS IN SEYMOUR

Only Fair Sized Crowd Heard the Address, Which Met With Little Enthusiasm.

HE PRAISES JOHN W. KERN

Congressman Lincoln Dixon Entered Crowd Until The Arrival of Bryan.

William Jennings Bryan, the three times defeated candidate for president of the United States, spoke here this morning in the interest of the Democratic party and his defeated running mate, John W. Kern, Democratic candidate for United States Senator from Indiana. When Mr. Bryan appeared there was a fair sized crowd present, but was not nearly as large as was anticipated by the local democratic leaders. The address, however, was heard by only a small number as the voice of the "peerless" ex-leader could not be heard above the noise of the constantly moving crowd. The speaker was introduced by Congressman Lincoln Dixon.

Mr. Bryan gave a part of his time to the record of Senator Beveridge, but his attempted criticisms were not received with hearty applause. Occasionally some faithful local lieutenant would start a little applause to encourage the speaker.

Mr. Bryan took occasion to praise his "friend" John W. Kern and told the crowd what an excellent senator he would make. He failed to make any reference to the bribery charge made by Kern in connection with the selection of Senator Shively.

Mr. Bryan, who has made a hard fight for local option in his own state, failed to refer to this law in any way.

Preceding the address of Mr. Bryan Congressman Lincoln Dixon spoke for about forty minutes. He was introduced by Albert Kasting.

With Mr. Bryan were J. Fred France, of Huntington, democratic candidate for clerk of the Supreme court, Lew Ellingham, candidate for secretary of state on the democratic state ticket, W. H. Blodgett, of the Indianapolis News, and a representative of the Indianapolis Star.

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address F. J. CHENEY & CO., Toledo, O.

FOR CONSTIPATION.

A Medicine That Does Not Cost Anything Unless It Cures.

The active medicinal ingredients of Rexall Orderlies, which are odorless, tasteless and colorless, is an entirely new discovery. Combined with other extremely valuable ingredients, it forms a perfect bowel regulator, intestinal invigorator and strengthener. Rexall Orderlies are eaten like candy and are notable for their agreeableness to the palate and gentleness of action. They do not cause griping or any disagreeable effect or inconvenience.

Unlike other preparations for a like purpose, they do not create a habit, but instead they overcome the cause of habit acquired through the use of ordinary laxatives, cathartics and harsh physic, and permanently remove the cause of constipation or irregular bowel action.

We will refund your money without argument if they do not do as we say they will. Two sizes, 25c and 10 c. The Rexall Store. Andrews-Schwenk Drug Co.

To Meet Tokio's Mayor.

New York, Oct. 19.—President Taft has invited Mayor and Mrs. Gaynor to spend Sunday at the White House in Washington. Mr. Taft will give a dinner Sunday night to Baron Ozaki, mayor of Tokio, and Baroness Ozaki, and Mayor Gaynor will be present. Mr. and Mrs. Gaynor probably won't come back till Monday.

Origin of Fire a Mystery.

Martinsville, Ind., Oct. 19.—The elevator of Rothrock & Son at Centerton was totally destroyed by fire, causing a loss estimated at \$14,000. Wheat, corn, oats, clover seed, mill feed and flour were burned. Insurance of \$9,000 was carried. The origin of the fire is a mystery.

Killed at Target Practice.

Hammonton, Ind., Oct. 19.—Frank Ross sixteen years old, shot and killed James Wiley. Ross claims it was accident. Wiley was behind a target at which Ross was shooting, and jumped out just as Ross fired.

Attend the Court of Honor week at the Nickelo all this week.

PLANS COMPLETED FOR BIG MEETING

Much Interest Shown in The Horticultural Demonstration at Stanfield Orchard.

LECTURES WILL BE GIVEN

Invitation Has Been Extended To Botany Class of Columbus High School.

There is much interest shown in the big horticultural meeting to be held at the Stanfield orchard on Thursday, October 27th, and from present indications hundreds will attend the demonstrations and lectures which will be given by the representatives of Purdue University. This orchard was selected as the place for holding the meeting as it has been cultivated the past year under the direction of the Experimental Station of Purdue University, and the results have been very satisfactory.

J. M. Masters, who has had charge of the orchard has made all the arrangements to accommodate a great crowd. It is expected that many persons interested in the cultivation of orchards from many of the adjoining counties will be here for the demonstration.

The botany class of the Columbus high school has been given an invitation to attend the meeting in a body, and arrangements have been made to give the visitors especial attention. An effort is being made to have horticulture a part of the high school course, and for this reason the Purdue representatives are anxious that all the high school students of Seymour and the neighboring cities, who are interested in the work be present.

The men who have charge of the meeting will show the best methods of pruning, spraying and caring for the trees. They have given this phase of the work careful study and are qualified to give the information in the best possible manner. Besides the demonstrations lectures will be given explaining the processes which have been adopted in the cultivation of the orchard.

The Experimental Station has tried to show that southern Indiana is an excellent location for profitable orchards, and that with proper attention apples and various other kinds of fruits could be grown here which would equal the famous varieties of the western fruit states. Formerly this state was noted for its fine apples, but because of the neglect of the orchards the quality has deteriorated and the orchards are not as profitable as they were years ago. The representatives of Purdue will come here to show that the orchards can be made valuable and that they should be given closer attention by the farmers and fruit growers.

For the accommodation of those attending the big meeting, lunch will be served on the grounds at noon so little time will be lost between the morning and afternoon meetings.

Court of Honor.

The Court of Honor Lodge will have charge of the Nickelo this week. Extra fine films have been secured and good shows will be given each evening. o22d

Attention Woodmen.

POCKET PICKED.

W. M. Titus, of Hayden, Loses Twenty-seven Dollars.

W. M. Titus, of Hayden, reported to Marshall Abell today that a pocket book containing \$27.00 in paper, gold and silver was taken from his pocket this morning during the Bryan meeting.

He said that a well dressed young man brushed against him and at the same time he felt his pocketbook taken from his pocket. Before he could make any move the thief disappeared in the crowd. He hunted up the marshal but the latter could not from the description locate the thief.

"ANY CHURCH RIGHT?"

Subject Tonight at Christian Church Revival.

Five more additions and a full house at the Christian church revival last night. Evangelist Roy L. Brown delivered a good sermon on "The Book My Mother Read." Every one present wore a white flower in memory of mother. Tonight the evangelist will preach on subject, "Is There Any Church Right?" A full house is expected and promised for this meeting. The interest grows from night to night. Services begin at 7:45 o'clock.

Flag Social.

Mrs. H. G. Stratton's Sunday School class will entertain the First Baptist Sunday school at a flag social Thursday evening, Oct. 20. An interesting program and social time has been planned. All members of the church and Sunday School, the parents and friends are invited.

Revival Meetings.

Rev. Luke P. V. Williams, state evangelist, will hold a two weeks series of revival meetings with the Ebenezer Baptist church, northeast of the city this week and next. All are invited to hear him.

Ladies' Aid Society.

The Ladies' Aid Society of the St. Paul's church will meet Thursday afternoon at 2:30 o'clock at the home of Mrs. Albert Weineke, on Carter street. All members and friends given a cordial invitation.

German M. E. Society.

Mrs. B. F. Schneck will serve a supper at her home on Thursday from four to eight o'clock. The proceeds will be used by the German M. E. Ladies Aid Society in furnishing a room at the hospital. All friends invited. o19d

Special Notice.

The Hon. Garrett M. Walrod of Indianapolis, will deliver an address, at the open meeting given by the Loyal Order of Moose, in Hancock's Hall, corner Second and Chestnut streets, Thursday, October 20, at 8:00 p. m.

Other speakers will be present. LADIES ARE ESPECIALLY INVITED. o20d

SKIN DISEASES HUMORS IN THE BLOOD

Nature has made ample provision in the moisture and sunshine of the air for the outward protection and healthy condition of the skin. But the more important work of nourishing the cuticle has been left to an inward source—the blood. It is from the circulation that the pores and glands receive their stimulus, and the fibrous tissues are all preserved in a healthful state because of constant nutriment supplied by the blood. It is only when the circulation becomes infected with humors or acids that we are troubled with skin affections. The humors producing these troubles are carried through the circulation direct to the skin, and their irritating or inflammatory effect remains until the blood is cleansed. S. S. S. cures Skin Diseases, because it is the greatest of all blood purifiers. It goes into the circulation and

SSS

removes the acids and humors which are causing the trouble, builds up the weak, acrid blood, and completely cures Eczema, Acne, Tetter, Salt Rheum, pimples, rashes, and all eruptions of the skin. When S. S. S. has driven out the humors every symptom passes away, the skin is again nourished with cooling, healthful blood, natural evaporation is renewed, and the skin becomes soft and smooth. Book on Skin Diseases and medical advice free. THE SWIFT SPECIFIC CO., Atlanta, Ga.

RARE CHANCE! Big Pay for Solicitors!

THE CINCINNATI WEEKLY ENQUIRER is offering Five Thousand Dollars in cash premiums to solicitors, in addition to a liberal commission that is more than ample to pay one's expenses, besides affording a living profit, while engaged in the work of soliciting subscriptions.

THE WEEKLY ENQUIRER is now a twenty-four page magazine-style paper, chuck full of reading most acceptable to any well-ordered home. Each issue contains a sermon by Pastor Russell, an essay by Dr. Madison C. Peters, a serial and short stories, natural history, general news and special record of political and national affairs that are of interest to all people, cut patterns for ladies and youths, and miscellaneous matter, all of high moral influence; also market reports from all commercial centers, and veterinary columns.

The editor's aim being to present the reader with an exceptionally good family journal of superior merit, free from all matters that antagonize morality, justice and truth.

To circulate such a paper, all well-meaning persons can benefit their community and add their mite in the uplifting of civic and political thought and action.

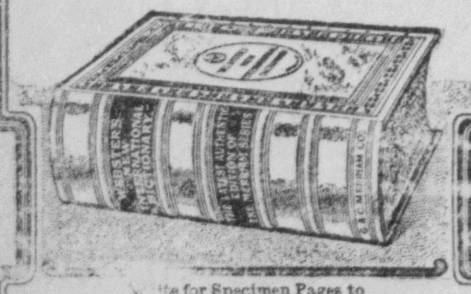

Any person, lady or gentleman, with leisure hours, desirous of doing a good turn for the community, at the same time earning fair payment, should apply at once for particulars by writing to THE ENQUIRER, Cincinnati, O.

THESE WOMEN FIGURE IN NEWS

Rose Pitano, Who Made Endurance Swim—New York Widow Runs Line of Tugboats—Servant's Life Is Only a Dog's Existence, Declares Mrs. Gans.

ROSE PITANOFF by her feat of swimming from East Twenty-fourth street, New York, to Coney Island light has established her reputation as a swift and daring swimmer. Miss Pitano is only fifteen years old. The distance she swam was eighteen and a quarter miles, and she accomplished it in 5 hours and 8 minutes. This is the longest aquatic endurance test ever recorded in the east.

Miss Adeline Trapp and Mrs. Clara Bouton also made new records for themselves this year. Mrs. Bouton swam from Far Rockaway to Brighton Beach in an endurance contest for life savers, winning the race in 1 hour and 35 minutes. Both Miss Trapp and Mrs. Bouton are members of the volunteer life savers' corps.

Teaches Women by Mail How to Keep Tea Shops.

A New York woman, Caryl Bensel, has opened a correspondence school of a novel kind. It is to help women who wish to start tea shops and lunch rooms. Miss Bensel herself is the successful proprietress of a tea room in the old Astor stables, which she runs under the name of the Tallyho, and a roadhouse on Long Island for hunters and motorists.

A Woman Tugboat Owner.

Among the women who have well paying businesses must be counted Mrs. T. S. Sheridan, who owns a line of tugboats which operate in New York harbor. Mrs. Sheridan was left a widow early in life, and instead of allowing her husband's business to fall

MRS. T. S. SHERIDAN

into the hands of strangers, she learned the details of it and now runs it very successfully.

An Authority on Domestic Science.

Mrs. Nellie Duling Gans of Chicago, one of the best known cooking instructors in the country, says that the average servant leads a dog's life.

"Wealthy Americans give infinite thought to the care of their dogs and horses, but little, if any, thought to the comfort of their servants," said Mrs. Gans recently. "The shopgirl gets \$5 and \$6 a week and pays for her board and clothing out of this. Housemaids in Chicago get \$7 to \$9 a week easily, with their board, but girls prefer to work where they may enjoy their freedom after their day's work is done. I don't blame them."

"The reason the servant girl question is so difficult to settle is this: It has been such a long time since many American housewives were servants themselves that they try to forget this fact as quickly as possible; likewise the servant and the servant's comfort."

"The only way, to my mind, to bring about an ideal condition of housekeeping in this country is to start every boy and girl on a course of cooking instruction in the public schools in their first year and keep giving them this instruction until they leave school."

"A model kitchen should contain a perfect pair of scales, a clock and a rocking chair for the servant. While a servant is making a salad and doing lots of other things she could just as well be seated and get ten or fifteen minutes' rest."

To Clean a Food Chopper.

To clean the food chopper, before washing it pass a slice of dry bread through it. This will remove the greater part of the fat and render it much easier to clean.

MARSH RECLAMATION.

Extensive Work Undertaken in Norway—Peat Manufacture.

Writing of the work performed by Det Norske Myrsekab in the reclamation and utilization of Norwegian marsh land, Consul Bertil M. Rasmussen of Bergen says:

The society has investigated 750 marshes and delivered 158 lectures throughout the country. In order to introduce improvements in the utilization and cultivation of marshes and making peat and material for bedding an experimental station has been established at Maeresmyren, Sparbu, with branches scattered all over the kingdom. Peat machines have been examined and improved, experiments are being made with new peat ovens, and a course of instruction treating on the preparation and manufacture of peat and litter, where young men are trained to take charge of this kind of work, is being pursued by representatives from every district.

Since the society's organization in 1902 the number of bedding factories has increased from 53 to 270, and the number of peat mills has more than doubled. A recent report from the forester's office shows that 300,000 cubic meters of peat have been manufactured and used as fuel during the last twenty-five years in one of the smaller districts of Norway. This not only represents the commercial value of the material used, which was estimated at \$335,000, but it means great economy in cutting of timber.

The fact that Maeresmyren (an extensive marsh) is now being reclaimed by the aid of convict labor and that the owners of other marshy tracts have decided to begin reclamation is largely due to the activity of the Norske Myrsekab. The society makes every effort to encourage private initiative, and its engineer has during 1907-8 superintended the reclamation of 1,390 maal (350 acres) of lesser marshes in addition to those already mentioned.

GLASS EAR PROTECTOR.

Device Prevents Injury From Detonation of Cannon.

The ears of gunners are often seriously injured by the detonation of great guns, the tympanum of the ear being frequently ruptured. Marliotti has invented a simple device which prevents these injurious effects, without diminishing the sharpness of hearing. The protector consists of a solid mass of glass of such form as to fit accurately the external ear, into which it is inserted. It is traversed horizontally by a perforation, the inner end of which almost touches the tympanum. The outer end of this horizontal passage does not quite reach the outer end of the mass of glass, but connects with a vertical passage which communicates freely with the atmosphere above and below.

The violent disturbance of the air caused by the artillery discharge produces an aspiration in the horizontal passage, and consequently a rarefaction of the small mass of air confined between the tympanum and the glass protector. In consequence of this rarefaction, the force of the aerial vibration transmitted to the tympanum is very greatly reduced. This effect is produced only by violent compressions of the atmosphere, so that the sensitiveness of the ear for ordinary sounds is not diminished.

Odd Uses For Paper.

Paper is entering into some of the important arts of Europe. The most novel use of it is in the manufacture of false teeth by the Germans, who say of the product that it is keeping its color well and is decidedly stronger than the porcelain imitation. When the winemakers of Greece found the lumber too costly with which to make wine casks, the manufacturers substituted paper pulp and have found it most satisfactory. A recent novelty is the work of an Austrian subscriber to a newspaper, sheets of which he preserved as material for a sailboat. The boat is twenty feet long, and for each paper board entering into it, 2,500 copies of the paper were used and softened for final molding under hydraulic pressure. Several countries have experimented in making paving of waste paper, but the cost so far is prohibitive.—Chicago Tribune.

Government Whitewash.

The following recipe for whitewashing has been found by experience to answer on wood, brick and stone nearly as well as oil paint and is much cheaper.

Slake half a bushel of unslaked lime with boiling water, keeping it covered during the process. Strain it and add a peck of salt, dissolved in warm water; three pounds of ground rice put in boiling water, and boiled to a thin paste; half a pound of powdered Spanish whiting, and a pound of clear glue dissolved in warm water; mix these well together and let the mixture stand for several days. Keep the wash thus prepared in a kettle or portable furnace, and when used put it on as hot as possible with painters' or whitewash brushes.

Guns and Armor.

In a recent paper Rear Admiral Bacon of the British navy, discussing the probable battleship of the future, arrives at the conclusion that the race between gun and armor, which has been going on for over half a century, has been decided, for the moment, in favor of the gun; nor is there any indication of there being a chance of improving the armor and strengthening general construction, so as to render ships reasonably immune from armor piercing projectiles.

DANCE WITHOUT FOOT COVERING

Latest Fad In the Education of Growing Girls.

THE latest fad for growing children is barefoot dancing. This is beneficial not only in teaching them grace of movement, but it also leads to health because of the contact with the earth.

The dances are supposed to take place out of doors whenever possible. A smooth space warmed by the sun is the ideal spot.

Even when the dances take place in the house they are beneficial because

DANCING WITHOUT SHOES OR STOCKINGS. of the untrammelled circulation in the feet.

The teaching of folk dances to little girls has been made a feature of recreation in some schools in New York city and elsewhere.

Linen Box For Napkins.

One of the most recent fancy work novelties is a linen box for napkins. This is to keep them free from soil in the sideboard or linen closet. For it a piece of white ribbon is used, stiffened with cardboard. The edges are overcast with heavy embroidery cotton, and the cover buttons are held down by means of a flap. A single Old English initial decorates the cover.

Smart Set Pedestriennes.

The women of the smart set are taking up walking in earnest. Truly nothing reduces the figure like it. Mrs. Henry Clews takes a daily constitutional of at least three or four miles. She carries a walking stick with a curved handle, which she finds of great assistance. Mrs. Joseph Harriman, Miss Maud Wetmore, Mrs. Royal Phelps Carroll and Miss Constance Warren are numbered among the most enthusiastic pedestrians.

The Woman Who Knows Better Than You What You Want.

Who has not met her? She asks you what you want for Christmas, and if you say a blue workbox you are just as likely to get a red one, because it is more durable, she says.

Of course it doesn't go with anything that you have, but the woman who knows better than you never thinks of that.

Give her a grocery list and she will buy not the brands that you expressly marked, but those which she thinks are better.

If you mention that you intend to do this and so with a certain dress she will immediately tell you that you ought to do the opposite and prove it to you by her own experiences with her own wardrobe.

If you state that you intend to have the dining room done over in green she will immediately exclaim: "Oh, no! You don't want another green room. You want it blue."

It is especially when a woman of this description is in trade that she proves annoying. You start out to buy a plum colored suit, and she persuades you that what you need is black. You give an order for certain kinds of embroidery silks, and she sends you an entirely different set of shades on the plea that they blend better.

You order a hat with a small head size, and when it comes home, behold, the crown comes below your ears, and all expositions bring forth the remark that they are making the head sizes large this year and therefore you will be better satisfied with it.

You cannot convert the woman who knows what you want better than you do. The only thing is to leave her severely alone.

MAUD ROBINSON.

Watch Your Stove Flues.

Every cook should clean all the flues of her stove at least once a week if she wants it to "draw" properly. An oven will not heat properly, nor will a boiler, however much coal is burned, when the range is choked with soot.

Let Me Tell You Something

A woman who is sick and suffering, and won't at least try a medicine which has the record of Lydia E. Pinkham's Vegetable Compound, is to blame for her own wretched condition.

There are literally hundreds of thousands of women in the United States who have been benefited by this famous old remedy, which was produced from roots and herbs over thirty years ago by a woman to relieve woman's suffering.

Read what these women say:

Camden, N. J.—"It is with pleasure that I send my testimonial for Lydia E. Pinkham's Vegetable Compound, hoping it may induce other suffering women to avail themselves of the benefit of this valuable remedy."

"I suffered from pains in my back and side, sick headaches, no appetite, was tired and nervous all the time, and so weak I could hardly stand. Lydia E. Pinkham's Vegetable Compound made me a well woman—and this valuable medicine shall always have my praise."—Mrs. W. P. Valentine, 902 Lincoln Ave., Camden, N. J.

Buffalo, N. Y.—"I am writing to tell you that I am pleased with your medicines. I had been sick for a long time with prolapsus. I heard about Lydia E. Pinkham's Vegetable Compound, and I have found that it is the right kind of medicine for me. I felt relieved after taking one bottle and I kept on taking it till now I am well and strong, and am able to do my work."—Mrs. Henry Rossow, 472 Genesee St., Buffalo, N. Y.

Since we guarantee that all testimonials which we publish are genuine, is it not fair to suppose that if Lydia E. Pinkham's Vegetable Compound had the virtue to help these women it will help any other woman who is suffering from the same trouble?

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

If the slightest trouble appears which you do not understand, write to Mrs. Pinkham at Lynn, Mass., for her advice—it is free and always helpful.

A Fashion Chat on Attractive Night-Gown

Furnished by Pictorial Review
853 Broadway, New York City.

Every woman delights in pretty and dainty underwear and is always on the look-out for bargains in laces, embroideries and materials. Now is the time of the year to make under-garments on account of the large white sales in all the department stores.

Among things often displayed at the embroidery and lace counters are beautiful medallions and motifs. These are much soiled and shop worn and for that reason are reduced to remarkably low prices. They work in well in chemise and night dress yokes as well as on corset covers and even in skirt flounces.

A practical and good idea is a nightgown that can be worn as a room gown if necessary. It is exceedingly useful and convenient when traveling and lessens the amount of baggage. It is made of soisette, a soft mercerized cotton fabric, slightly heavier than nainsook or batiste though it has the softness of both of these. It is mercerized which gives it the delightful lustre of silk and comes in various colors. PICTORIAL REVIEW PATTERN No. 3450 is an excellent style for this gown.

It has a high neck with a rolling collar, is perforated for low neck and can be made with long or short puff sleeves. It comes in sizes 32, 36, 40 and 44 inches bust measure. Size 36 requires 6 yards of 40-inch material with 2½ yards edging to trim.

Women who do not like flannelette night-gowns yet want something heavier than cambric or muslin have adopted figured white madras.

A soft, fine quality is selected covered with snowy little mercerized figures that sparkle and shine like silk. Trimmed with an edge of linen torchon, it fashions nightgowns to please the most critical.

Dainty batiste, nainsook and fine French lawn are used for the handsomer nightgowns and embroidery makes the most pleasing trimming.

PICTORIAL REVIEW PATTERN No. 3450 is a most winsome nightgown and very simple to make. It is in empire style which is extremely becoming and the coquettish slashed sleeves are caught together with knots of ribbon. The front and sleeves can be made of embroidered flouncing if desired, and the sizes are 32, 36 and 40 inches bust measure. Size 36 requires 4½ yards of 36-inch material and 4½ yards embroidery 15 inches wide.

Irish lace medallions, combined with hand embroidery make a rich trimming. Linen lace is attractive and gives good wear besides being ridiculously low in price.

Prices of these patterns including cutting and construction guides are 15 cents each number.

THE CUBS GOT AN AWFUL BEATING

Athletics Laid It Over On Them
Nine to Three.

A DECIDEDLY ONE-SIDED GAME

American League Champions Pounded the National Leaguers All Over the Field—Indeed, a More Soundly Beaten Bunch Than the Cubs Would Be Hard to Find—Quakers Not Much on Excitement at Ball Games.

At Philadelphia— R.H.E.
Chicago... 1 0 0 0 0 1 0 1—3 9 3
Philadelphia 0 0 2 0 1 0 6 0—9 14 3
Batteries—Brown, Richie and Kling; Coombs and Thomas.

Philadelphia, Pa., Oct. 19.—The Athletics made a show of the Cubs Tuesday in the second game of the world series. Led by Eddie Collins, who made three hits, two of them doubles, the American league champions pounded Miner Brown to bits. After several innings in which they had him in bad straits, the home clubbers fell on him in the seventh and slashed his delivery for six runs. The Athletics ran bases all around the Cubs, and had these veterans as far up in the air as if they had been minor leaguers. Richie was sent in for the closing inning to face the Athletics and escaped runless. Thousands of those who came to see the second game quit early and by the time the last out was made, nearly half the seats were empty. The crowd apparently did not have the least fear that the Cubs were going to rally and indeed a more soundly beaten bunch than the National Leaguers it would be hard to find. The score was 9 to 3.

But for the matter of that, Coombs was lucky to get away with his game. It was only the wonderful fielding of the Athletics that saved time and again. He had his side in difficulties every inning but two. He pitched a very inferior game, uneven and uncertain. But just so soon as he worked himself into a bad box along came a star play of some sort by his support and the knot was untied. The Athletics made three double plays to save Coombs, and one of them was the finest bit of fielding seen hereabouts in some years. With the bases full and one out in the fourth, Chance, the Cub leader, drove a fly high but not deep, to right field. It looked like a certain sacrifice. Murphy closed in on it, and made one process of the catch and the throw. He lashed the ball straight and true to the plate, so that it got there on a short bound and the catcher was waiting for Miner Brown, no slow runner, when the pitcher reached the plate, and the other doubles were just as handy, too. Let it be mentioned that Collins, who figured in both the others, accepted ten chances safely, scored two runs, made three hits in four times up, scored two runs and stole two bases on the redoubtable Kling. Collins was the star, chiefly because he drove in the Athletics' first two runs with a sparkling double down the left field line, but the whole Athletic crowd was there with the batting eye.

Every man made at least one hit, and they were all clean, solid smacks that rang off the bat in good style. There was more free, heartwhole hitting on the part of the Athletics than the Cubs are accustomed to meeting.

It is a curious thing about the crowds that have been here the two days of the world's series, that although large and appreciative of good ball playing, they are capable of enthusiasm for brief moments only. Applaud they do, but by handclapping as much as anything. They don't begin to compare with the New York or Chicago crowds for vociferous demonstrations of pleasure. There is not any really frantic rush to get into the park, and there is not any dashing out of the place. They saunter here, and they are self-contained folks.

There were not quite as many folks here yesterday as there were the day before. The paid attendance figures were 24,597. The money taken in was \$35,137. Of this the players' share is \$18,973.98, the clubs' \$12,649.32, and the commission's \$3,513.

Mrs. Johnson Seeks Her Liberty.

Newcastle, Ind., Oct. 19.—Habeas corpus proceedings have been instituted in the circuit court to obtain the release from jail on bond of Mrs. Etta Johnson, arrested on a charge of murdering her husband, George E. Johnson, by administering carbolic acid. The hearing will begin tomorrow morning before Judge Jackson. Mrs. Johnson's attorneys set up the claim that the state has not sufficient evidence to show her to be guilty or that a murder was committed.

Tragedy Over Family Trouble.

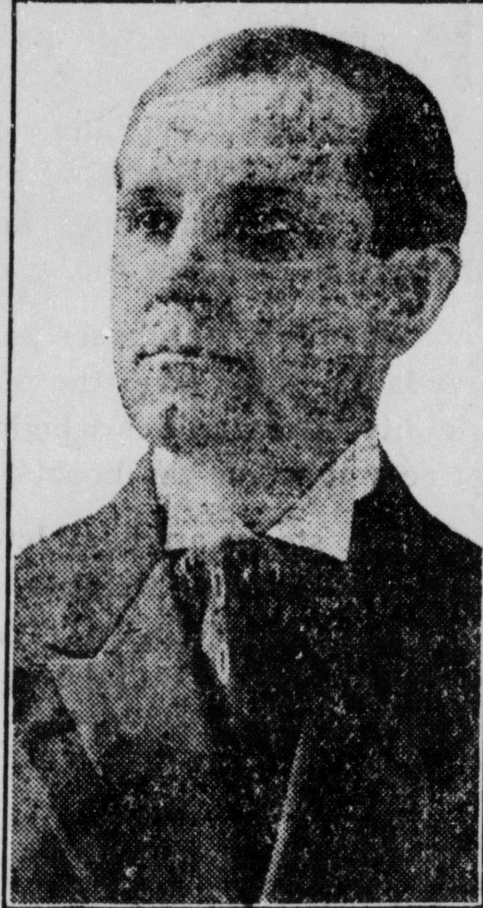

Terre Haute, Ind., Oct. 19.—Famous Williams killed James Dillon in the Alberts saloon at Seelyville over family difficulties. Williams knocked Dillon down and, kicking him in the head, fractured his skull.

Count Tolstoy Failing.

St. Petersburg, Oct. 19.—Count Tolstoy experienced a series of fainting spells and was unconscious for several hours. Later he was said to be in a somewhat improved condition.

OSCAR E. BLAND

Republican Candidate For Congress in 2nd Indiana District.

EUROPEAN BALLOON TRIP IS ABANDONED

Wellman's Party Picked Up At Sea By Steamer.

New York, Oct. 19.—Walter Wellman and his five companions, who last Saturday morning sailed from Atlantic City in the dirigible balloon America in an attempt to fly to Europe along the northern steamer route, were picked up at sea by the steamer Trent, Captain C. E. Down, bound for New York, at a point about 375 miles east of Norfolk, Va., and about 250 miles northwest of Bermuda.

The America, after a record flight for dirigibles of about seventy hours, was sighted close to the water in distress and was abandoned by Wellman and his crew, all of whom sought safety aboard the Trent with the help of the dirigible's lifeboat. On being free of the weight of the crew the airship immediately shot skyward as the lifeboat was taking the water. The sea that was running at the time was moderate and the aeronauts had very little difficulty in reaching the Trent and boarding that steamship. The balloon, now a speck in the sky, was left to the winds, to founder in the Atlantic when her gas had escaped.

None of the aeronauts was found to have suffered seriously from his adventures. Wireless telegraphy, which first helped in life-saving at sea when the steamship Republic suffered a collision a year ago last winter, for the first time played an important part in aeronautical rescue, the Trent's attention having been called to the America's distress by wireless message. Although Wellman had been blown far from his course by the winds that began to come out of the northwest Sunday night, thereby making his announced plans futile, the flight establishes a world's record for dirigibles. The previous record for dirigibles was held by Count Zeppelin, who last year flew from Dusseldorf to Bitterfeld and return, a total distance of 840 miles, in thirty-eight hours.

The serious troubles of the airship crew began when Wellman and the crew noticed that so much gas was escaping from the big bag that the balloon was settling toward the waves. To keep from dropping into the water it was necessary to throw out tank after tank of gasoline, which left the airship without fuel for the engines.

The Colonel Lays Off.

Oyster Bay, N. Y., Oct. 19.—After stumping up the Hudson for Stimson, Mr. Roosevelt has returned to Sagamore Hill to rest for a couple of days.

TERSE TELEGRAMS

Nashville has a population of 110,364 against 80,865 in 1900.

Omaha has a population of 124,096 against 102,555 in 1900.

Congressman Foss has been nominated for governor of Massachusetts on the Democratic ticket.

At Joliet, Ill., Mrs. J. J. Payne was probably fatally shot by her jealous husband, who killed himself directly afterward.

While returning from a hunt, William Rice was accidentally shot and killed by his nephew, Ernest Earle, near the Rice home at Centerville, Pa.

President Gomez of Cuba has announced that the building of a \$1,000,000 presidential palace will be postponed and the money devoted to the relief of the sufferers by the storm.

Heavy rain which turned to snow in the mountains of eastern Utah and western Wyoming demoralized transcontinental telegraph service and resulted in delay to trains.

The striking employees of the Columbus (O.) Railway and Light company have voted to declare off the strike which has been in force since July 24. The strikers will be taken back as rapidly as places can be made for them.

NOBODY SPARED

Kidney Troubles Attack Seymour Men and Women, Old and Young.

Kidney ills seize young and old. Come quickly with little warning. Children suffer in their early years. Can't control the kidney secretions. Girls are languid, nervous, suffer. Women worry, can't do daily work. Men have lame and aching backs. The cure for man, woman or child is to cure the cause—the kidneys. Doan's Kidney Pills cure sick kidneys—

Cure all forms of kidney suffering. Seymour testimony proves it.

W. G. Steinberger, 123 Mill street, Seymour, Ind., says: "Doan's Kidney Pills did me so much good that I willingly recommend them for kidney trouble and lame back. I was in poor health for a long time and when a member of my family read about Doan's Kidney Pills, a supply was procured. This remedy strengthened my kidneys and removed the pain and lameless through my back and hips. I have since felt like a different person."

For sale by all dealers. Price 50 cents. Foster—Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Advertised Letters.

EDWARD A. REMY, P. M.

The Demon of the Air

is the germ of LaGrippe, that, breathed in, brings suffering to thousands. Its after effects are weakness, nervousness, lack of appetite energy and ambition, with disordered liver and kidneys. The greatest need then is Electric Bitters, the splendid tonic, blood purifier and regulator of stomach, liver and kidneys. Thousands have proved that they wonderfully strengthen the nerves, build up the system and restore health and good spirits after an attack of Grip. If suffering, try them. Only 50c. Perfect satisfaction guaranteed by Andrews-Schwenk Drug Co.

Drinks and Drops.

"Jenkins must be a pretty straight fellow. Dobbins tells me he never drinks a drop."

"So? You probably misunderstood Dobbins. What he said must have been that Jenkins never drops a drink." —Exchange.

Saved from the Grave.

"I had about given up hope, after nearly four years of suffering from a severe lung trouble," writes Mrs. M. L. Dix, of Clarksville, Tenn. "Often the pain in my chest would be almost unbearable and I could not do any work, but Dr. King's New Discovery has made me feel like a new person. It's the best medicine made for the throat and lungs." Obsolete coughs, stubborn colds, hay fever, la grippe, asthma, croup, bronchitis and hemorrhages, hoarseness and whooping cough yield quickly to this wonderful medicine. Try it. 50c and \$1.00. Trial bottle free. Guaranteed by Andrews-Schwenk Drug Co.

His Good Excuse.

Magistrate—Drunk again! When you were last here you promised to sign the pledge.

Prisoner—Well, I'm going to as soon as I can write. I've bin takin' lessons, but I ain't made much progress yet.—Exchange.

Worse than Bullets.

Bullets have often caused less suffering to soldiers than the ezeema L. W. Harriman, Burlington, Me., got in the army, and suffered for forty years. "But Bucklen's Arnica Salve cured me when all else failed," he writes. Greatest healer for sores, ulcers, boils, burns, cuts, wounds, bruises and piles. 25c at Andrews-Schwenk Drug Co.

USE OF TIME.

We each have all the time there is. Our mental and moral status is determined by what we do with it. —Mary Blake.

The Call of the Blood

for purification, finds voice in pimples, boils, sallow complexion, a jaundiced look, moth patches and blotches on the skin—all signs of liver trouble. But Dr. King's New Life Pills make rich red blood; give clear skin, rosy cheeks, fine complexion, health. Try them. 25c at Andrews-Schwenk Drug Co.

We do "Printing That Pleases."

PEOPLE CROWD TO HEAR BRYAN

Southern Indiana Turns Out to Greet Commoner.

APPLAUDED IN SAME OLD WAY

The Nebraskan Does Not Seem to Have Lost Any of His Original Drawing Power, the People in Southern Part of the State Gathering in Unusual Fashion to Cheer His Utterances—At Indianapolis Tonight.

Evansville, Ind., Oct. 19.—Bryan's speaking tour of southern Indiana has greatly pleased the party leaders, who find him drawing the largest crowds that have come out to meetings in this section. People are coming twenty or thirty miles to hear him and are applauding him in the same old way. At Evansville, Owensburg, Petersburg and Bloomfield have assembled the most enthusiastic crowds of the campaign, and Bryan has received attention not given to any other speaker.

An incident of his trip from Evansville to Petersburg caused considerable amusement on the train. People at Elberfeld, Rosebud, Somerville and other small mining towns demanded that the train stop long enough for them to greet Bryan. Most of the places are flag stations, and at all of them the train was duly flagged. It developed that the local agents had agreed to stop the train, though there were no passengers to get on, because the people were so insistent that they were afraid not to put out the flags. Bryan came out on the platform at all the places and said a few words and shook hands with a great number of persons, while shouts rent the air. Mr. Bryan will speak at Indianapolis tonight.

ENGINE AGAINST NICKEL

Wager Led to Lawsuit and Owner Lost His Machine.

Lawrenceburg, Ind., Oct. 19.—A lawsuit for possession of an old thrashing engine was compromised before the case was called for trial in the circuit court, both parties to the suit paying the costs, amounting to about \$200. Alois Knecht, a well-to-do farmer of Jackson township, was returning the engine to his farm when it ran into a deep ditch. He hitched six horses to the engine, but they could not drag it back to the road.

Edward Hemke, merchant and postmaster at Weisburg, drove by and wagered a nickel against the engine that his small horse could pull the machine from the ditch. Hemke, with jacks, blocks and ropes, raised the heavy engine, built a trestle, and with a rope and several pulleys, the horse dragged it back to the road. Hemke later took the engine to his farm and Knecht brought suit to recover it, claiming the wager was a joke. Under the settlement Hemke retains the engine.

TERROR STRICKEN

Motormen of Fated Trolley Cars Incapacitated by Fright, Says Coroner.

Fort Wayne, Ind., Oct. 19.—In his verdict in the case of the Kingsland wreck victims who died in hospitals in this city, Coroner A. J. Kesler ascribed the neglect to Motorman Charles Vandine of the northbound car as well to Motorman Corkwell and Conductor Wilson of the southbound car, which overran its orders. Coroner Kesler criticises both motormen for what appears to have been a failure of any attempt to stop the cars when they saw the crash was inevitable. The officers believe they were too terror-stricken to act. Motorman Vandine has until now been held blameless, and he has resumed his run on the trolley line.

RED MEN ELECT

New Officers of the Great Council of Indiana, I. O. R. M.

Indianapolis, Oct. 19.—At the annual meeting of the great council of Indiana, Improved Order of Red Men, the following officers were elected: Great prophet, C. M. Stout, Middletown; great sachem, C. C. Norris, Rushville; great senior sagamore, George F. Harper, Madison; great junior sagamore, Roy W. Emig, Columbus; great keeper wampum, Frank E. Caster, Indianapolis; great keeper of records, Otto Wolf, Frankfort; great trustee, Frank M. Graham, Bloomington; great representatives, George I. Kisner, Terre Haute; John N. Coffman, Muncie, and Alfred Ellison, Anderson.

Serious Practical Joke.

Muncie, Ind., Oct. 19.—Boy friends for a joke placed gunpowder under the tobacco in a pipe which they offered to Byron McKeey of Farmland. When the powder was exploded the boy was knocked down and in falling thrust his hand through a window, severing an artery. His eyebrows and hair were burned off and his face was injured. He almost died from loss of blood.

Robbed While He Slept.

Logansport, Ind., Oct. 19.—While Matthew Graham of Kokomo was asleep on the banks of the Wabash, two strangers robbed him of his shoes, hat, coat and \$37.50.

Humor and Philosophy

By DUNCAN M. SMITH

PERT PARAGRAPHS.

DON'T knock. You won't hurt the other fellow, but will get yourself the reputation of being a grouch.

Don't worry lest your demise cause a deep void. The world will forget you before it stops to do anything else.

The farmer knows just how to run a grocery store, and the business man looks forward eagerly to the time when he shall quit business and gather in shekels from that farm of his dreams.

Today we use a motorboat on the river of life where our fathers used a raft.

The small boy thinks it is an ill wind that shakes down no hickory nuts.

The woman who cleans garments with gasoline in a room with lighted gas doesn't tarry with us long enough to wear the renovated things.

Nothing injures the memory of a millionaire like being called to the witness stand.

Why is it that a man on a fishing trip will call good fare that is served to him at home would cause him to raise the roof six inches.

Waste not your change on ball games and you will want not for girls to accompany you to the soda fountain.

Didn't Annoy Her.

"He proposed to me again last night." "That makes the third time, doesn't it?"

"No; the fourth." "And you turned him down again, I suppose."

"Cold." "The idiot! How long do you suppose he will keep this up?"

"He isn't any more idiot than you are or as much either, for that matter, and he has my permission to keep it up as long as he wants to."

Seasonable.

Some artist, believe me, is Autumn. In colors she dipeth her brush. And, reckless as daubers of whitewash. She throws the paint on with a rush. The leaves that were yesterday verdant grow red as the head of a guy Who hears that the maiden is fooling? Who said she'd be his by and by.

His Enthusiasm.

"I do love enthusiastic people." "Do you?" "Yes, don't you?" "The most enthusiastic person I know is one I have little use for." "Why?" "Well, he is a bill collector."

Of Course.

"Why do you go out on such a stormy day, my dear?" "Why?" "Yes." "Because I can't make the day be fair."

Not at All.

"Women always fool themselves." "They do?" "Yes." "Well, then is when they don't mind being fooled."

But the Thing In Summer. "I think it is horrid." "What?" "That tan is so unbecoming in autumn."

The Contrasts.

An auto is a goodly sight. As smoothly it goes gliding. And motoring is quite a treat. For those who care for riding. But when it turns a somersault. Breaks bones and eats up money. And musses landscape right and left. It isn't quite so funny.

To see an auto climb a hill. A sight is worth beholding. The little engine chugs along. And does a deal of scolding. But when it tries to climb a tree. And on the leaves goes grazing. When gasoline should be its food. The sight is more hair raising.

To tear off forty miles or more. In just about a minute. Is meat and drink and exercise. To persons seated in it. But when a man is much in haste. And his machine tries balking. He envies then the humble chap. Who takes his out in walking.

A sojace for the old and young. A comfort for the lazy. And joy unspeakable, sublime. For persons plumb speed crazy. All these and more the auto is. The snail and race horse shaming. But those who love it most admit. It needs a lot of taming.

JUST PUBLISHED

Webster's NEW INTERNATIONAL Dictionary, (G. & C. Merriam Co., Springfield, Mass.) surpasses the old International as much as that book exceeded its predecessor. On the old foundation a new superstructure has been built. The reconstruction has been carried on through many years by a large force of trained workers, under the supervision of Dr. W. T. Harris, former United States Commissioner of Education, and reinforced by many eminent specialists. The definitions have been rearranged and amplified. The number of terms defined has been more than doubled. The etymology, synonyms, pronunciation, have received unsparing scholarly labor. The language of English literature for over seven centuries, the terminology of the arts and sciences, and the every-day speech of street, shop, and household, are presented with fullness and clearness. In size of vocabulary, in richness of general information, and in convenience of consultation, the book sets a new mark in lexicography.

The Brownstown Banner commends the high tax rate in Jackson county and urges the people to keep men in office who will keep the taxes up. The Banner even cites the increase of twenty-five cents in the tax rate in Seymour by the present democratic city council and seems to think the people ought to like it. But the people of Seymour, like the people throughout the county, are not very cheerful over the increase of the tax rate. This is taxpaying time and when taxpayers pay their fall taxes they are once more convinced that taxes are already much too high in Jackson county and getting higher every year. The people know that they are not getting value received for the large sum of money they pay as taxes. They also know that they can not count on anything better from the men now in control and are therefore convinced that the time has come to make a change of administration. The Republicans are for lower taxes and advocate the election of men who will bring the taxes down. The election of the republican county ticket will mean lower taxes. If you want the tax rate to come down get to work for the men on the republican ticket. They are all good men.

John W. Kern in his campaign is depending largely on his ridicule and abuse of Senator Beveridge and Republican leaders, while Senator Beveridge is dealing with the great questions that today interest the American people. He has a record of usefulness and active, courageous work that he can well rely upon. His record among other things shows he led the fight for the meat inspection law, for the tariff commission, for the department of commerce and labor law, was active in securing the passage of the pure food laws, worked untiringly for the safety appliance, employer's liability laws, compensation act, for the eight hour law, for postal savings bank, and other great measures. The people have always known that he stands for honest progressive statesmanship. His defeat would mean inestimable loss to Indiana and for the country.

The recent reports of the state accounting board's special examiners regarding some of the county officers are in the minds of the taxpayers as the election approaches.

Mrs. M. F. Bottorff, who has been ill for some time, is in a critical condition.

STORM DAMAGE WAS APPALLING

Florida and Lower Georgia Suffer Enormous Loss.

EXTENT ONLY CONJECTURAL

With All Wires Down South of Savannah, the Loss Due to the Tropical Storm Which Swept Up Out of the Caribbean Can Only Be Guessed, but It Is Known to Be Appalling—Hundreds Killed in Cuba.

New Orleans, Oct. 19.—Seven vessels in the Central American fruit trade are overdue here and great apprehension exists in regard to them in consequence of the severe tropical storm raging in the Gulf of Mexico and Caribbean sea.

Havana, Oct. 19.—Communication with the interior has not yet been restored. It is rumored that the loss of life in the province of Pinar del Rio will amount to hundreds, while tens of thousands are destitute.

Savannah, Ga., Oct. 19.—After sweeping across the Florida peninsula, and causing millions of dollars damage from Key West to Jacksonville, the West Indian hurricane is southeast of Savannah. The storm has been one of unusual severity, causing wire communication to be severed with all points south of Savannah.

It is known that three lives were lost in Key West, where the property loss was great. Tampa, St. Augustine, Miami and Jacksonville were either in the center or within the danger zone of the storm and suffered loss, though no estimate of the damage is yet obtainable.

Communication Cut Off.

As all the wires south have failed, what has happened in south Florida is only a matter of conjecture. When communication was lost with Tampa the gale was blowing over sixty miles an hour and great damage to property was being done. The orange groves in south Florida have undoubtedly been practically ruined. The gale was over sixty miles an hour at Jacksonville, and the property damage was reported as enormous. Loss of life was reported, but could not be verified. The last heard from St. Augustine reported the waves rushing over the sea wall, endangering property on the sea front, while the marshes for miles around were already inundated. The wind was increasing and the barometer falling. The gale here reached a velocity of sixty miles an hour and property was damaged enormously. Over 1,000,000 bales of cotton on the docks here are in danger of being swept away. Reports from Brunswick are to the effect that the storm is being felt in full force there and that great damage is being done.

Gulf Waters Unusually High.

Harlingen, Tex., Oct. 19.—The greater part of Padre Island, which extends north and south, bordering the lower Texas coast for ninety miles, is inundated by the unusually high water of the gulf. So far as known no lives were lost.

SCIENCE INTERESTED

Medical Research Advanced by Dr. Carrel's Astonishing Discovery.

Baltimore, Oct. 19.—Along lines conceived by himself and worked out under the skillful guidance of the Hopkins men who are at the head of the Rockefeller Institute for Medical Research, Dr. Alexis Carrel has made one of the most important medical discoveries of the age, and one which promises to have a wide influence in the advancement of science. Dr. Carrel's discovery involves a method of removing from the human body portions of tissue and making them grow at as lively a rate as they did in the human form to which they belonged. The method of cultivating the living body or portions of it is somewhat similar to the cultivation of disease germs, and is by the aid of culture material within sealed receptacles. Through the study of living tissues the whole progress of disease may be followed and the way pointed out for the application of proper and effective remedies. It is believed that much may be learned which will lead to a more intelligent treatment of cancer than is now possible.

WEATHER EVERYWHERE

Observations of United States weather bureaus taken at 8 p. m. yesterday follow:

New Orleans.. 78	Clear
St. Louis..... 76	Clear
Washington... 62	Clear
Philadelphia.. 62	Clear

Rain; probably same Thursday, much colder.

FALL OPENING SALE

THE main object of this Fall Opening Sale is to give the newest in styles, the most reliable in merchandise, which—with the price attached—require no premiums or chance to prove their value, and our twenty-five years of constant efforts to increase the values and keep down the prices are strongly in evidence this season.

Our early purchases and our buying facilities for five large stores gives the public of this county and vicinity opportunities which very few shopping centers of near this size can boast of.

Our stocks are complete in all departments, and owing to the mild weather at the beginning of this season we are going to give special inducements on merchandise. You take no chances.

WOMEN'S NEW FALL SUITS AND CLOAKS.

What's going to be worn in suits and cloaks will be completely settled by your visit to this department. A complete showing of every desirable new style, from the extreme to the more staple styles are now on exhibition. Prices are most fair in each instance.

OUR SHOWING OF NEW WAISTS

Will surely delight you. Each one was selected by us for its style and beauty first, and secondly, for its dependable quality. You can be sure that your waist wants will be best met here.

THE NEWEST FALL SILKS

You'll hardly expect us to give you a pen picture of the designs, coloring, etc. of this Fall's New Silks. Our stock is quite complete with the newest creations and we'll take pleasure in showing them, whether or not you are intending to make a purchase at the time of your visit.

SPECIALS IN FALL'S NEWEST SKIRTS

Special purchase of separate skirts for this Fall Opening Sale, to be sold at prices exceedingly low. Each one is in the latest correct style and the sale prices in no way represent the real value.

NEW FALL DRESS GOODS

In the language of the trade "dress goods business is picking up." We have more new dress goods to show you this season than ever before. Some of the fabrics were bought in small quantities of each design in order to give our early shoppers exclusiveness in their new Fall Costumes.

NEW FALL MILLINERY

Printer's ink is inadequate to describe the new Fall Hats. Printed words will not satisfy, nor give you a correct idea. We want you to see the hats themselves. Come!

GOLD MINE DEPT. STORE

WHAT ARE YOU PAYING?

THIS is a very important question. How many of you who run charge accounts and use telephones and delivery boys exclusively to buy your groceries know what you are paying? If you knew you could save from 20 to 100 per cent. would you change? I'll venture to say I can save you that amount if you will only allow me to. I had 2000 customers in my store last week, were you among them?

Below please note some special prices.

Best Granulated Sugar lb. 5½¢
1 dozen Nutmegs for..... 4¢
½ lb. Pure Ground Pepper .8¢
½ lb. Grain Allspice for.... 5¢
3 lbs. Home Grown Onions .5¢

Mrs. Susan Evans and Mrs. Eva Hart and daughter, Doris, spent Wednesday evening and night with Mr. and Mrs. H. W. Clark.

Editor Ceerfahrt, of the Democrat, Bert Weyl, Fremont Miller and Elba Branigan came down from Franklin to attend the Bryan meeting.

Mr. and Mrs. J. H. Matlock went to Indianapolis this morning. Mrs. George Hamilton, who has been Mrs. Matlock's guest, returned to Brownstown.

Rol Emig went to Indianapolis Tuesday to assist in the campaign of his brother, Roy Emig who was the successful candidate for great junior sagamore.

Ex-Mayor Bridges of Franklin, and ex-county clerk Dault Wilson, of Greenwood, were among the Johnson county people who came down to escort Bryan to Edinburg.

Weather Indications.

Rain, and decidedly colder tonight. Thursday threatening and colder.

Crushing a Bore.

John G. Whittier, the Quaker poet, once in describing the usages of the Quakers in regard to "speaking in meetings" said that sometimes the voluntary remarks were not quite to the edification of the meeting. It once happened that a certain George C. grew rather wearisome in his exhortations, and his prudent brethren, after solemn consultation, passed the following resolution: "It is the sense of this meeting that George C. be advised to remain silent until such time as the Lord shall speak through him more to our satisfaction and profit."

NEW CORSET MODELS ARE HERE

We have just received the new models of

Thomson's "Glove Fitting" Corsets

They are designed to give that long, slim, lightsome appearance to the waist and to reduce the size of the hips very materially. This is accomplished by the unusual tailoring of the corset.

Stout women especially will realize the importance of these features. Reduction is accomplished by the tailoring and not by the strappings and accessories used on the patented "reducers."

There is a model for every figure be it stout or slender.

PAULINE CHASE

Actress Who Is Going to Marry Aviator and Retire From Stage.

New York, Oct. 19.—Pauline Chase has announced her engagement to marry Claude Grahame-White, the aviator, in the spring, and her intention to retire from the stage. Grahame-White has been in America for the past two months giving demonstrations cities, in the airship of his own making. On one of his recent flights Miss Chase accompanied him.

No Wedding Presents in Hungary. In Hungary wedding presents are only given to poor couples to help them get their homes together. The girl friends of the brides show attention by making cakes of various kinds to be partaken of at the marriage feasts. Other gifts there are none. And this is a custom that one could wish were more general. There is no wedding cake, either, as we understand it, but each guest receives a kind of sweet cake of the substance of cracknel biscuits, made in the form of a ring about ten inches in diameter.

Just a Hint

To our patrons that now is the time to plant Crocus bulbs and Peonies, Spiraea Van Houtte, hardy shrub for next to curb planting. Phone your wants to us, we deliver everything.

FRANK J. TILLEY

Republican Candidate For Con-
gress in 5th Indiana District.BALLOON RACE WILL
MAKE NEW RECORDSAt Least That Is Expectation
of Promoters.St. Louis, Oct. 19.—Three balloons,
the St. Louis No. 4, Condor and
Million Club, are on the ground in the
international balloon race. Ten started
from St. Louis Monday. The seven
other racing spheres have crossed
Lake Michigan and are believed to be
sailing over Lake Huron, while per-
haps one or two are heading northeast
over Lake Superior.St. Louis No. 4 landed near the
shore of Lake Huron at Hillmann,
Mich. The Condor landed about four
miles north of Two Rivers, Wis. The
balloon Million Club came to earth six
and a half miles north of Racine, Wis.
The pilot said he landed with eight
sacks of ballast, which he had not
considered enough to carry him over
Lake Michigan with the wind blowing
from the southwest. All world's
records will probably be broken.

HANDS OFF

That is the President's Attitude in Re-
lation to New York Fight.New York, Oct. 19.—President Taft
will not involve himself further in the
New York state campaign. He will
rest on the statement made through
Mr. Stimson, that he does not believe
that the 1912 presidential nomination
is an issue in the present fight.Some New York state Republicans
have urged Mr. Taft to take a more
definite stand in regard to this matter;
to say something himself that will help
to combat the roar that is being raised
that a vote for Stimson means a vote
for Roosevelt in 1912. The president's
close friends in New York state, how-
ever, have advised him to steer clear
of any unnecessary complication in the
New York state fight, and this ad-
vice has fallen in with the president's
own inclination, and it is practically
decided that he will not take part fur-
ther in the New York campaign ex-
cept to send two members of his cabi-
net into the state to speak in support
of the Republican nominee.

French Railway Strike Called Off.

Paris, Oct. 19.—The National Rail-
way Men's union has issued a long
manifesto calling off the railroad
strike. The union does not seek to dis-
guise the failure of the strike.

LEESVILLE.

Born to John Martin and wife, Satur-
day, October 8, a daughter.
Born to Ed Glover and wife, Friday,
October 14, a daughter.
Dr. W. H. Smith, of Bedford, visited
friends and relatives here Monday night.
Miss Annie Gillen and Dr. S. V. Smith
and wife went to Bedford Monday shop-
ping.
Creed Douglass had fourteen sheep
killed by the dogs Monday night.
Mrs. Retta Todd is critically ill.
William Martin, of Illinois, is here
visiting relatives for a few days.
Mrs. Sarah Plummer, who has been
visiting relatives in California during
the summer, has returned home well
pleased with her trip.
Mrs. Norman Weddle went to Sparks-
ville Thursday to visit her daughter.
Mrs. Rachel Brown and children and
Miss Jule Wray spent Tuesday at Creed
Douglass.
Mr. Robertson, of Sparksville, was
here Friday looking after some timber.
Miss Flinn, the school teacher, visited
near Lenison Saturday and Sunday.
Folk Beavers and wife, of near Tun-
neiton, visited C. E. Douglass and wife
Sunday.

Saturday evening the Masons of Lees-
ville dedicated their new lodge room at
the corner of Main street and Broadway.
This room has been occupied by this
lodge for many years. There were nearly
200 Masons from Salem, Campbellburg,
Mitchell, Bedford, Fort Fisher, Sparks-
ville, Medora, Brownstown and Seymour,
besides the Cedar lodge at Leesville.
Thirty-two automobiles were standing
on the square at one time, besides many
vehicles. Supper was served at 11
o'clock. All returned at a late hour
thanking the Masons at Leesville for their
kind hospitality, wishing them good
luck and long lives.

Mollie Gillen returned home Sunday,
after a two weeks' visit here with Mrs.
Holland and Mrs. Smith.
Harvey Woolery went to Brownstown
Monday on business.

Creed Douglass and wife were out Sun-
day in their automobile and took Mrs.
Thompson and daughter, Josie, a nice
ride.

Newland Smith and family, of near
Salem returned to their home Sunday af-
ternoon, after a pleasant visit with his
brother, Dr. S. W. Smith and wife here.

Lawrence Walters and family and his
sister, Kate, of Vallonia, visited W. S.
Pate and family Saturday and Sunday.

Mrs. Dollie Foster is added to our sick
list.

Abbie Mathis will have a sale Satur-
day, October 22, at his farm, south of
Leesville.

ENTERTAINED.

Mr. and Mrs. J. P. Henderson, of Lees-
ville, entertained Sunday, October 16, in
honor of their cousins, Mrs. Effie Hall
and Mrs. Myrtle Reichenbach, of Rocky
Ford, Col. The beautiful country home
was decorated with red and green auto-
umn leaves and green fern. An elegant
dinner was served to thirty-four guests.

Those present, besides the family, were
Joseph P. Henderson and family; Mrs.
Nancy McHargue and family; C. J. Bran-
aman and family; Rosecoe Fountain; Miss
Edith Weddle; Mrs. Mary Jordan and
daughter, Ivy; Marshall Goen and fam-
ily; Mr. and Mrs. John D. Grantham and
baby; Ruth, Elora; Mrs. Fannie Phil-
lips, Campbellburg; Mr. and Mrs. Wil-
liam Phillips, Miss Hazel and Harley, of
Campbellburg; Mrs. Flora Bennett, Lees-
ville; Mrs. Effie Hall and baby, Margue-
rite, Rocky Ford, Col.; Mrs. Myrtle Rich-
enbach, Rocky Ford, Col.

The lovely day passed all too soon, the
afternoon being devoted to music and
social chats. Everyone present seemed
to be a committee of one to make the day
one to be long remembered.

Many grateful thanks to Mr. and Mrs.
Henderson for the privilege they afforded
us of the meeting of dear friends that
otherwise would have been impossible.

NEW DRIFTWOOD.

Attendance at Sunday School, 23; col-
lection, 34 cents.
Rev. David L. Newsom filled his ap-
pointment Sunday. Mrs. Newsom ac-
companied him.

Tuck Edwards and wife were in town
shopping Saturday.

Edwards and wife are working on the
new telephone line.

The high waters damaged corn to a
great extent. Some are husking their
corn to save what they have left.
Hal Williams and Orville and Wilmer
McDonald are husking corn for Frank
Moore.

Mr. and Mrs. Ezra Jolly visited Mrs.
T. S. E. Ruddick Sunday.

Dr. L. Ruddick called on relatives in
this vicinity Sunday.

Miss May Spurling is working at Frank
Moore's.

William Booth is building an addition
to his house.

Walter Patrick and Sherman Ruddick
have been visiting in the poles on the
new telephone line.

Mr. and Mrs. Jap Hilt visited Frank
Moore Sunday.

ROCKFORD.

The Sewing Society will meet Thurs-
day afternoon with Mrs. R. R. Short.
John Lauster returned to navy
Monday, after a week's visit with re-
latives and friends.

Mrs. Mina Abell went west of Seymour
one day last week to see her mother,
Mrs. Rev. David L. Newsom, who is sick.
Miss Bessie Woensner went to White
Creek Sunday to visit her parents, Mr.
and Mrs. Willis Woensner.

Roy Miller and family spent Sunday
with Mrs. Enola Montgomery.

Mrs. Hugo Siefker and children, of
Seymour, spent Sunday with Mr. and
Mrs. John Emilly.

The canning factory is working on
pumpkins this week.

Mr. and Mrs. Ahl spent Sunday with
their son at Woodstock.

Henry Bergdoll and family, of Sey-
mour, spent Sunday afternoon with
Woodford Leblanc and family.

RETREAT.

Born to Mr. and Mrs. John Weddle,
Tuesday, October 11, a son.

E. E. Hamilton was here Monday.

Mrs. Myrtle Rude was a business cal-
ler at Jeffersonville Thursday.

Mrs. Grace Briner, of Seymour, who
visited her aunt, Mrs. Mary Hildreth, re-
turned home Friday.

Mrs. Lucy Gorrell's children, of Croth-
ersville, came here Friday and went to
the grandfather's, Jesse Collins, to spend
the week end.

John Berry and family, of Hilgia, were
here Saturday, visiting Jake Baughman
and family.

A. E. Hoding and Lyde Burge attended

mee, visited Thomas McKinney and wife
over Sunday.

Quite a number of relatives, neigh-
bors and friends gathered at the home
of Enoch Clappitt last Thursday to
celebrate Mrs. Clappitt's fifty-second
birthday anniversary. A fine dinner was
served and all enjoyed the day.

A surprise party was given Miss Cora
Wray Wednesday night. The time was
spent in music and games.

John Sanders has moved his family
from Heltonsville to the C. A. Branan
farm near here.

Most Callahan has moved to Pleasant
ridge.

The
TRIUMPH
Air Blast

Is the latest and greatest invention for producing heat from
soft coal. Practically all fuel can be turned into heat and
utilized in the room—no waste of gases, no waste of soot, no
waste by having ashes banked against the fire pot. When
we say we can save you one-third of your fuel bill is putting
it mildly. The construction of the fire pot is so arranged
that its radiation surface is double that of any other soft coal
stove made. It is the only fire pot where it is absolutely
impossible for ashes to bank against; the only fire pot where
hot air has a complete circulation from top to bottom. The
perfect fitting ash pit door, the ball bearing grate, the solid
cast body are all features worth your while to consider in
buying a stove. We will be glad to demonstrate the con-
struction of the Triumph Air Blast and prove up what we say.

FOOD ADULTERATION.

Annual Loss to Consumers in France
Amounts to Millions.

The adulteration of food in France
is said to result in a profit of \$100,000-
000 per year, says Scientific American.

Bread, which may be called the na-
tional food of France, has long been
adulterated largely with talc, a sub-
stance which is not only indigestible,
but is exceedingly irritating to the
gastro intestinal mucous membrane be-
cause of the sharp crystal fragments
which it contains. Flour is often mix-
ed with alum or with potassium car-
bonate to increase the amount of water
absorbed, with zinc sulphate to keep
the bread fresh, with copper sulphate
and ammonium carbonate, to diminish
the quantity of yeast required and to
improve the appearance of bread made
with spoiled flour.

Denatured alcohol, costing one-eighth
the price of pure alcohol, is used for
the manufacture of the liqueurs and
aperitifs, which are so largely con-
sumed in France. Alcohol, dena-
tured by the addition of methyl al-
cohol, is mixed with an equal volume

of water and exposed for a few days
to the sun, air and rain, which have
the effect of precipitating the methyl
alcohol so completely that its flavor
remains barely perceptible. The mix-
ture is then brought to the desired al-
coholic strength by the addition of
strong spirits, flavored to suit the taste
of the consumer and sharpened by the
addition of a pint of nitric acid to
each barrel.

Invention For Washing Clothes.

At recent expositions in Melbourne
and Sydney Vice Consul General Hen-
ry D. Baker found that much atten-
tion was attracted to an ingenious
Australian invention of a machine for
washing clothes by means of suction
caused by a vacuum, which he de-
scribes:

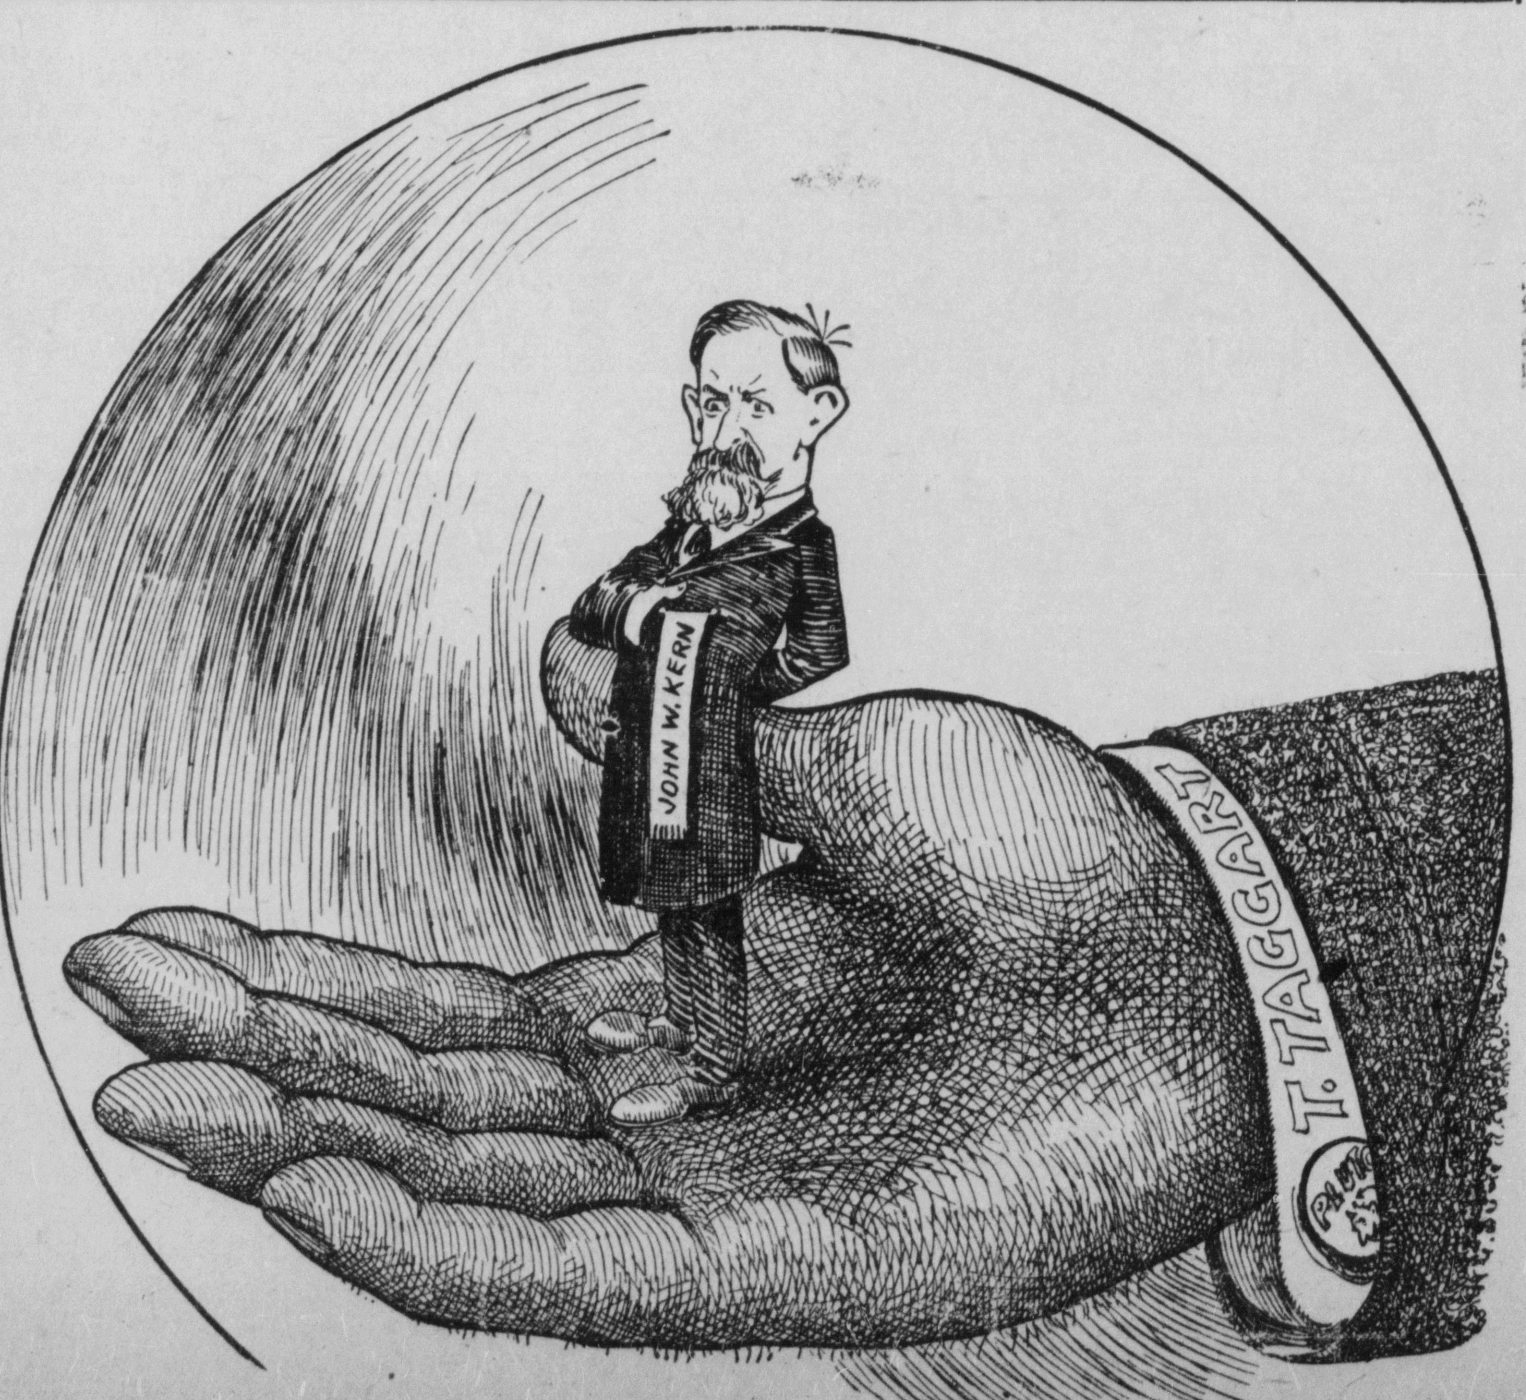

The device in appearance resembles
a metal cone or inverted perforated
funnel. It may be placed in a copper
bottle or even in an ordinary kerosene
tin. When the water boils, steam is
generated inside the cone, this forcing
the water in a spray out of the top of
the funnel, thus forming a vacuum in-
side the cone. To refill this vacuum

the water is sucked through the
clothes continuously, and this percola-
tion goes on at the rate of four gal-
lons a minute, the dirt being removed
by force and rapid circulation. The
machine appears to remove all kinds
of dirt and discoloration, and to leave
the articles washed "snow white" in
appearance, while it also saves the
rough handling incident to usual la-
borious rubbing and scrubbing, and so
tends to eliminate wear and tear, and
serious damage to delicate fabrics, lin-
ens, laces, etc.

A CHEERFUL FACE.

To wear a cheerful face when
the heart is aching is not deceit.
When a good housekeeper cleans
the front steps and porch before she
sets the house to rights she does not
mean to deceive passersby. She
merely shows some pride in her
house and some consideration for
her neighbors. We conquer our
heartaches more quickly when we
begin by considering the friends
who are near us.

Where John W. Kern Stands

WHIPPING CASE SETTLED

Miss Annie Kelley Pays Judgment Obtained by a Boy Pupil.

Champaign, Ill., Oct. 19.—The famous case of Michael Burke against Miss Annie Kelley, his school teacher, has been settled by Miss Kelley paying \$1,200 to the boy's father, William Burke. The case originated four years ago, when Miss Kelley, teacher in the Tolono schools, and Sherman Cass, her principal, were charged with whipping young Burke and making him a cripple for life. A suit for \$10,000 was brought and judgment for \$1,800 was granted. Then came the fight to collect the judgment. Cass went to jail and stayed there six months rather than pay the amount against him, the Burkes paying his board while he was in prison. He finally settled his part of the judgment for \$600.

Miss Kelley went to Danville and entered into bankruptcy, claiming that the civil courts had no jurisdiction over her. F. M. Wright, United States circuit judge, upheld her contention, but his decision was overruled and Miss Kelley fled. The entire case was settled when Miss Kelley paid the \$1,200 and court costs of \$700 or \$800.

HE OBEYED

Gary People Witness the Bossing of the Boss of Thousands.

Gary, Ind., Oct. 19.—Residents of Gary who had gathered in Jefferson park to get a glimpse of Elbert H. Gary, chairman of the United States Steel corporation, as he inspected the park, were much surprised to see the

man who is boss of 225,000 men, take orders from a woman and obey them. That woman was his wife. The steel magnate after whom the city is named wished to get out of the auto in which he was riding to take a walk through the park with Captain Norton, resident property chief of the corporation. "Elbert, you are not feeling well," the bystanders heard Mrs. Gary say, "you will stay right in here," and Elbert stayed.

Judge Gary came to the city with the members of the American Iron and Steel Institute, of which he is president, and their European guests. The party came in a special train and inspected the Gary steel plant and took an auto ride through the model city.

MISTAKEN FOR COON

Illinois Boy the Victim of a Crack Shot Fired by Companion.

Robinson, Ill., Oct. 19.—While John Noblet, his son Robert and Henry York were hunting coons four miles south of here, Robert Noblet was instantly killed by a rifle fired by York. The party had scattered to look for game and young Noblet climbed a tree to dislodge the coon. York did not know the boy was in the tree, and when he saw something moving in the branches and saw two eyes glistening he fired, the bullet striking Noblet between the eyes.

His Good Excuse.

Magistrate—Drunk again! When you were last here you promised to sign the pledge.

Prisoner—Well, I'm goin' to as soon as I can write. I've bin takin' lessons, but I ain't made much progress yet.—Exchange.

A Wet Harvest Relic.

A curious token has been found at Barton, inscribed "Tunstead and Happing, 1812. One Halfpenny. Payable at the Corporation House." This was the year of the wet harvest in England, the worst ever known. It rained incessantly all September, October and during most of November, and Nov. 20 farmers were carting barley, a sharp wind frost prevailing. Wheat was 63 shillings a coomb, and so bad was it in quality that dough made from the flour resembled slime. Every Monday morning the overseers and church wardens met at the parish churches to devise means to provide employment and relieve the starving poor.—London Standard.

Posthumous Fame.

Seven towns of Homer bragged that used to try to have him "vaggd."—Pittsburg Post.

MAN'S MISSION.

In his own life a man is not to expect happiness. He is only to profit gladly by it if it shall arise. He is on duty here. He knows not how or why and does not need to know. He knows not for what hire and must not ask. Somehow or other, though he does not know what goodness is, he must try to be good. Somehow or other, though he cannot tell what will do it, he must try to give happiness to others.—Robert Louis Stevenson.
